Each new season, brings a brand new reason,
To visit the Red Horse Inn.

July 20, 2015

Mr Tom Burke

Dear Tom,

We can't wait to greet you at the Red Horse Inn.

Please take a moment to review the details of your reservation and some handy information:

Our office closes at 8:00 P.M.:

If you will be arriving after 8:00 P.M., which is absolutely fine, please contact us by email or phone and we will email you the late arrival arrangements.

~All of our rooms are non-smoking~

~Complimentary Continental Breakfast is served Daily~

(Coffee, tea, hot chocolate, orange juice, milk, hot and cold cereal, assorted bagels, fresh baked muffins, English muffins, yogurt & fruit)

~Memorial Day Weekend through Columbus Day Weekend~

We offer discounted tickets for the Island Queen Ferry to Martha's Vineyard

5 minute walk from the Inn.

~Our Check in time is 3:00~

We will email you when your room is ready.

~Check out is at 11:00~

We ask you to please drop the keys at the office or in the mailbox outside of the office.

~We love them, but they can't stay here! ~

No Pets allowed

Tom, we have you checking in on Monday 08/03/2015 and checking out on Saturday 08/08/2015 which is a total of 5 night(s). You have reserved 1 Cottage Queen room (s) for 1 adults and 0 children, at the rate of \$150.00 weekday (Sunday - Thursday) and \$184.00 weekend (Friday & Saturday). As of this moment you will need to switch rooms on your last nights stay with us but we will make every effort if the opportunity arises to keep you in the same room. If you do need to switch rooms we would be happy to take care of moving your things for you and make it pain free. We will email you on your check in date when your room is ready, as you may have the opportunity for an early check in.

The total amount of your stay, including tax will be 860.05. Your first

night deposit of 0.00 has been applied to your stay. If there are any changes that you wish to make, please refer to your confirmation 21376.

All room rates are based on double occupancy and are restricted to 2 guests, with the exception of our Double Queen Room. Our Double Queen room which has 2 queen beds has a maximum of 4 guests in the room with the 3rd and 4th guest @ \$30 per night per person.

We do not allow any extra bedding in our rooms, no cots, no air mattresses, and no sleeping bags on the floor.

We are greatly concerned for the safety and comfort of all of our guests. Children under 12 are free; however they do count as a guest in the room and must be reported on your reservation.

Any guest in a room that is not included in the total on the reservation will be charged.

Cancellation Policy: All cancellations must be made in the form of an email. If you booked through any online reservation site, outside of our website, your cancellation must come through them. All deposits are fully refundable up to 14 days prior to your check in date. Any cancellations made after the 14 day policy, are not refundable.

Transportation & Directions from Area Airports

Boston's Logan Airport

TF Green Airport/Warwick RI

Peter Pan Bus Line offers service from Boston's Logan Airport right into Falmouth. <http://peterpanbus.com> <<http://peterpanbus.com/>>

Driving Directions to the Red Horse Inn

FROM BOSTON:

Route 24 South to I-495 South to the Bourne Bridge, or Route 3 South to Exit 1A to Route 6 West to Bourne Bridge to 28 South.

FROM NEW YORK & CONNECTICUT:

Follow Interstate 95 North through Providence to I-195 East to I-495 South. Take Exit 22A which will put you on Route 25. Follow Route 25 south approximately 8 miles to the Bourne Bridge.

FROM THE BOURNE BRIDGE:

Follow Route 28 South to the end of the divided highway. You will automatically come into a single lane. At the first traffic light turn LEFT onto Jones Road. Go two sets of traffic lights, turn RIGHT onto Davis Straits. Follow this road approximately one half mile to a fork in the road. On your left hand side you will see Friendly's Ice Cream. Turn LEFT at the fork onto Falmouth Heights Road. The Red Horse Inn is approximately 300 yards down on the left side. Our street address is 28 Falmouth Heights Road and our phone # is 508-548-0053.

We can't wait to greet you and we wish you safe travels,

Cindy Brown & the Red Horse Inn Staff

Subject Check in on tire crumb
Location 5530 WJC-N
Show Time As Busy

Hey all- we are hoping folks can attend in person, but here is a call in number for those off-site.

Call in number 1-866-299-3188
Access number 202 564-4308

Hi all- we are hoping to convene on Monday to discuss current and future actions on tire crumb. We received another NBC media inquiry on the topic, so we would like to get an update from each office involved.

Liz will be following up with additional details.

Thank you,

Laura Allen

Show Time As Busy

Hi Tina – I talked with Tom, and he would like to get together with the ORD team prior to the briefing with Jim on 8/11. I’ve added Nathan here so he can get this on the books. You’ll need to let him know who to include. It looks like Aug. 10 is the only opportunity to do this. Do you think 30 minutes is enough time, or do you think we’ll need an hour?

Thanks!

Kacee Deener, MPH

Subject: Atrazine

Tom, I understand that our teams have had productive discussions regarding our atrazine ecological risk assessment. To make good on my commitment to the Administrator to consult with you on our assessment, I'd like to schedule a briefing by the team involved (OCSPP and ORD) on the results of their discussion for the two of us. If you are amenable we will go ahead and schedule for sometime in early to mid August. Thanks.

Jim Jones

Subject Nutrients Video Recording
Location 41209 RRB
Show Time As Busy
POC: Melissa Anley-Mills

Opportunity to film Tom delivering some key messages about the Nutrients Sensor effort and the Nutrient Visualization winner. This would be a In The Moment Video, a short video (under 2 minutes) uploaded to the EPA YouTube account (it's not searchable, it's pointed to by other social media). The final In the Moment video (Tom would review and so would Carolyn Hubbard) would be issued on WEDNESDAY via @EPAREsearch tweet (potentially a FB post). Anticipate the messages to be the same as Tom will deliver in-person at the Nutrient Sensor Challenge Summit Meeting. We *could* film the In the Moment at the Summit; but wanted to get something in the bag where we could control the audio, lighting and background a bit more and give time for me to caption and load it up. If Tom or Carolyn don't like the video, we don't have to use it.

Notes: Dr. Burke accepted the invite on 6.16.2015 details below:

Meeting/Briefing/Event request for: Tom Burke

Title of Meeting/Briefing/Event:

Nutrient Sensor Challenge Summit (Wash DC) – Award announcement

Nutrient Sensor Challenge Beta Testing/Challenge Nutrients Coalition
meeting - August 12 & 13, 2015 (Solomons, MD)

Purpose: The Challenge Summit, on August 12th, 2015, is a major
event for the Nutrient Sensor Challenge <<http://www.nutrients-challenge.org/>> , a collaboration with OSTP, NOAA, USGS, and NIST,
among others, to accelerate the development and deployment of more
accurate and cost effective aquatic nutrient sensors. At the Summit,
Tom Burke is invited to announce the winner of the Visualizing
Nutrients Challenge
<<https://www.innocentive.com/ar/challenge/9933113>> . This is a sub-
challenge conducted in collaboration with USGS and Blue Legacy

International aimed at converting data to compelling and innovative visualizations that inform individuals and communities on nutrient pollution and inspire them to take action. The winning visualization will be presented from 1:20 pm – 1:40 pm on August 12th. Tom is welcome to stay for any/all parts of the Summit. Please see attached draft agenda.

Following the Summit, on August 13th the first beta tests for the sensors will take place at Chesapeake Biological Laboratory in Solomons Island, MD at the Alliance for Coastal Technologies. The beta testing will allow the sensor developer teams to test initial instrument performance in the field. They will then receive early feedback on their technologies, which will be benchmarked against reference water quality samples. Tom Burke is invited to come to Solomons Island at 10 am to see the deployment of the sensors and tour of the Alliance for Coastal Technologies' research laboratory.

Also in Solomons Island, MD, after lunch on August 13th, the Challenging Nutrients Coalition will meet as an opportunity to share the success and accomplishments the group has had as well as discuss the future direction of the coalition. We would like to invite Tom to also attend this meeting and provide introductory remarks. The agenda for the meeting is not yet finalized.

Role: Tom Burke will present the winner of the Visualizing Nutrients Challenge on August 12th, 2015, attend beta testing and tour the Alliance for Coastal Technologies laboratory in the morning on August 13th, and provide introductory remarks at the Challenging Nutrients Coalition meeting after lunch on August 13th.

Urgency: The events will be on August 12th & 13th, 2015.

Requested Length of Meeting/Briefing/Event: Approximately 1 hour on August 12th, Tom is welcome to stay all day if his schedule allows. Also, approximately 3-4 hours on August 13th.

Participants: Representatives from sensor developer teams (participants in the Nutrient Sensor Challenge), staff from ORD, EPA, NOAA, USGS, NIST and other agencies, academic researchers from the Alliance for Coastal Technologies.

Logistics: Summit Location: Carriage House in Dupont Circle: 1529 18th Street NW
Beta testing & coalition meeting location: Chesapeake Biological Laboratory in Solomons Island, MD, at the Alliance for Coastal Technologies facilities.

Where: by phone - 1-866-299-3188, passcode 202-564-0473

Good morning everyone,

I have set up this call to occur for the next week. It will happen at the same time every day – including over the upcoming weekend. We may be in a position to drop these at some point – but we can arrive at that decision next week. Since there are potential impacts to three regions I have included 6,8 and 9.

Here is the call-in information for the calls:

Number: 1-866-299-3188

Code: 202-564-0473

Thanks.

Matt

Subject NCEA Screening Values

Location Call-in: 866-299-3188, code: 202-564-7356
Show Time As Busy

We've evaluated the R8 work and have performed some other analyses, here is some "bottom line" information to share:

- 1) NCEA developed separate child and adult screening level values whereas R8 created a combined (child adult) screening level value for oral exposures. With a few exceptions, the NCEA child and adult values bracket the R8 values with the child values lower and adult higher (the NCEA separate child or adult values are typically within a factor of 2 of the R8 values). Bottom line: the R8 derivation of soil/sediment and surface water oral exposure screening values for hikers/campers is reasonable though it does not provide as much protection for children as the separate child/adult screening level analysis NCEA developed, and we do not have access to all information they utilized (see point 2).
- 2) NCEA did not have the 'site-specific adjustments for bioavailability' that R8 used for As and Pb (we requested this information late yesterday); the R8 screening level values for As sediment ingestion is much higher than NCEA value (~90x for a child) but the screening value for ingestion of As in surface water is similar. For Pb, the R8 screening values for both sediment and water ingestion are lower (more protective by factor of 2-8) than NCEA values.
- 3) Dermal exposure contributes relatively little to the screening value for combined ingestion and dermal contact with water, for most chemicals. When screening levels are estimated based on a combination of ingestion and dermal exposure using Region 8's ingestion values and ORD/NCEA's dermal values, the screening levels are only slightly lower for most chemicals. A few exceptions are: beryllium, cadmium, and chromium.
- 4) An initial evaluation of absorption data indicates that due to low dermal absorption rates, dermal exposure may be of less or much less concern than ingestion of contaminated sediment or water; however, this is based on CDC, NJDEP and other agency analyses of absorption data for just 2 chemicals (As and Pb)(reference attached)
- 5) Ingestion of sediment contributes relatively little to the screening value for combined ingestion of sediment and water. We are creating a short paragraph describing the relative contribution of ingestion of sediment versus surface water.
- 6) An initial evaluation of absorption data indicates that due to low dermal absorption rates, dermal exposure is of less or much less concern than ingestion of contaminated sediment or water.
- 7) NCEA derived screening level values for more chemicals than R8 did: we also have derived values for antimony, molybdenum, selenium from sediment and surface water ingestion
- 8) We have not compared the screening level values to the levels measured in the water and sediment and do not have any conclusions regarding exceedances of screening levels.

9) We have not discussed our evaluation with R8 or others; please let us know if you would like us to do so.

10) Potential synergistic or antagonistic risks from exposure to the polymetal mixture have not been evaluated. Risks to potential at-risk populations such as pregnant women have not been specifically considered. Other exposures (e.g., to contaminated fish) have not been considered. Reasonable parameters have been incorporated into the analysis; these may be modified if desired (e.g., child consumption of sediment, duration of exposure) to consider alternative assumptions in derivation of screening levels values or to estimate risks from current or estimated levels of exposure. The NCEA analyses have only been internally reviewed within NCEA.

11) We welcome an opportunity to walk you through our analysis (spreadsheet attached) and address any questions you may have.

Subject: draft agenda for non-targeted screening workshop

Dear Organizing Committee,

Attached please find a draft agenda for our Aug non-targeted screening workshop. We just confirmed our final invited speaker earlier this week.

At this point, we welcome all comments and suggestions on content, organization, timing, etc. We've listed EPA speakers and discussion leaders throughout the agenda; these can certainly be adjusted as we see fit.

Please let me know if I can provide clarification regarding any of the invited speakers or topics. You'll notice that we've left two 30-min time slots open for speakers/topics TBD. We're hoping that we get some exciting abstract submissions, and can offer small travel awards to two presenters with the most compelling abstracts. This is both a nice way to bring in additional speakers at a lower cost, and to identify new exciting research projects.

I can certainly schedule a meeting to discuss the agenda if you all think that would be useful. But hopefully, for the time being, we can exchange suggestions via email.

Thanks so much for your input!

Jon

Subject: Conference call? Biomonitoring & the CO mine spill

Dear Federal Partners,
APHL plans to convene a call with CO, NM & UT to talk about the possibility of doing some human biomonitoring related to the CO mine spill. Given your interest in better using biomonitoring in response efforts, we hope you might consider joining us. If you are interested, please indicate your availability here:

Tom

Am just back in the office and around (after a very good day at EPA with Gina yesterday on Asia air pollution).
Dan is on leave till the week after next, but I am fine scheduling time to talk in the near term on unconventional oil and gas or other issues. Just let us know.

Kelley and Nathan,
Can we see what we can do to make sure we can meet. Thanks

Tom

Thomas A. Burke, PhD, MPH
Deputy Assistant Administrator
EPA Science Advisor
Office of Research and Development
202-564-6620
burke.thomas@epa.gov <mailto:burke.thomas@epa.gov>

On Aug 19, 2015, at 5:01 PM, Brooks, Karl <brooks.karl@epa.gov
<mailto:brooks.karl@epa.gov> > wrote:
I'd like to meet for 30 minutes before 12noon Friday this week on this
topic. We can also use that time to discuss your kind invite for me to
join your intriguing effort to reconceive ORD's science mission. If my
historian's perspective can help you and your team, I'm honored to
contribute what I can. Let me know if you want me to bring a couple
suggested readings to our meeting that you can consider adding to your
prep list for your RTP conference.

That RTP meeting in late Sept would probably be a valuable chance for
me to hear your colleagues think aloud, and for me to offer some input.
Let me know date, and if I'm welcome. I've always got OARM work at
RTP, so no burden to be there.

Cheers,
Karl

Karl Brooks
Acting Assistant Administrator
Office of Administration and Resources Management
Immediate Office

Cc: Gwinn, Maureen <mailto:gwinn.maureen@epa.gov> , Smith, Kelley <mailto:Smith.Kelley@epa.gov>

Hi Nathan -

We're trying to set up a meeting between the IRIS folks and Tom and Bob. I think the earliest this could happen is the week of August 10 (since Bob is out next week and Tom out the following week), but it looks like Vince is out the week of Aug. 10 and I think he should be in this meeting.

Can you check calendars and try to get something set up?

The topics are: 1) the arsenic assessment development plan and 2)

hazard descriptors

Thanks!

Jennifer, can we talk a bit today about the possibility of using Enviro Atlas to map discharges that should be considered in longer term sampling strategies.

Annie,

I spoke with the EOC Manager and he would like to send information on EnviroAtlas to two groups. He thought the planning team within the IC as well as the data management team might be interested. Because we are in the middle of a response, he suggested a short paragraph describing how the tool could be used in the response and recovery efforts. In addition, if there is any other links other than the general Enviro Atlas link please also send that along. I will get it to the EOC Manager and he will distribute. He thought it sounded like a useful tool. Thanks, Emily

Subject: RE: Modeling update

Hi All,

Jennifer asked me to send out these thoughts from an EnviroAtlas perspective. Megan Mehaffey and I looked at the GIS project link provided in Eric's earlier email. We added several EnviroAtlas maps to the project as an illustration of how you can add EnviroAtlas web services to any mapping project. Just to be clear, we do not have the authority to add anything permanently to the project and our additions were only viewable on our desktops. I have attached a few ppt slides of screen captures showing EnviroAtlas data layers within the Animas GIS project:

Domestic Water Use summarized by 12 digit HUC (i.e., medium sized drainage basin)
Agricultural Water Use summarized by 12 digit HUC
Industrial Water Use summarized by 12 digit HUC
Residential population per 30 square meters
Number of Threatened, Endangered, and Imperiled Aquatic Species

It is very easy to add our services to their application, just a matter of

copying and pasting a URL. We didn't take the time to adjust the display with more meaningful classification breaks but this is easily done. We can also supply customized maps for some attributes at much finer resolutions. These are just examples, EnviroAtlas likely has other maps that may be useful depending on specific questions. Slide 5 shows a close-up of one of the 12 digit HUCS and the pop-up that will identify specific values for each HUC.

I also added a screen capture using our raindrop tool, although not useful for this response now, it traces the general surface flow pathway of a drop of water from any point on the map to the water body it will enter, may be useful in the future.

On a separate note I was wondering whether anybody from EPA is sampling for macroinvertebrates, they may serve as an indicator of short and long-term sediment toxicity. The paper in this link describes assigning metal toxicity ratings to macroinvert genus/species (<http://www.ncbi.nlm.nih.gov/pubmed/22553143>). EERD folks have done lots of this kind of sampling and analysis. There may be existing macroinvert data from EMAP/NARS or possibly USGS. I read that the Mountain Studies Institute has collected pre and post-spill macroinvert data.

Please let us know if you need additional information or if we can help in any way.

Regards,

Annie

Subject: RE: Modeling update

Morning Kate

I'm working on the questions Jennifer provided yesterday.

Here's where we are...
The EOC GIS lead, Josh Krochmal (contractor) just provided everyone

in the EOC with this link to an ARC GIS map he has been populating with sampling data. I am going to give him a call to see if we can get any additional maps or shape files or whatever he has beyond what's in this link. <http://epa.maps.arcgis.com/home/webmap/viewer.html?webmap=0225eaf42bb64e649f922d383182e99a> Use your EPA Enterprise LAN username and password to access the map. It clearly does not reflect where additional sampling has/is occurring.

The EPA OSC site has been updated with a new situation report (SITREP 4) and the publically available data:

http://epaossc.org/site/site_profile.aspx?site_id=11082

We have put as much pressure as we're comfortable putting on the OSWER Desk (Terry Smith) to get the sampling plan. Terry has been pressing the Unified command hard on sending it to HQ but they are focusing on implementation right now. As soon as we get it I will pass it along to you so you can see what data they are planning to collect. I think I mentioned yesterday that there was a discussion between the ORD Desk and other EOC members about the possibility of adding some samples and/or analytes to what is being collected. We are going to have to work with whatever they are going to provide and, at least in the short term, there won't be any additions to whatever is in the sampling plan.

I think that the second and third questions will be answered when we see the sampling plan. If I were a betting man (I'm not even though I live in Las Vegas!), I'd bet that they are not focusing on radiological contaminants besides, possibly, gross alpha and beta.

Thanks again for your great work.

Eric

McDonald, Michael E.; Orme-Zavaleta, Jennifer

Subject: Modeling update

Importance: High

Hydrologic Modeling

Focus is applying Water quality and bioaccumulation models to understand plume movement, metal chemistry at different points and where metals could precipitate out.

Currently gathering data that Eric is providing, applying multi metal chemistry information. Relying on USGS flow data to parameterize the models. Anticipate modeling outputs early to mid week next week. Will

provide you tiered modeling approach tomorrow am.

Potential hotspots of sediment contamination could be where faster moving water hits slower moving water (within a mile of that interface) and where there are pH change interfaces

EnviroAtlas application

Identifying data layers to use, collecting information on water use sectors, location of imperiled species, demographic maps and potential EJ locations as well as other point discharge locations for metals along the rivers. Hope to have Atlas runs later tomorrow or early next week.

Questions:

Has the EOC established a GIS site so we know what maps they (Regions or States) are using and have available? Would help to compare with what we have or to provide information they may not have.

Is anyone looking at radiologicals? Often co-contaminants with mining wastes, especially from gold or silver operations. May be of more concern than metals themselves

How are contaminant measurements being collected? In water column only, total suspended solids, or sediments?

Subject Brownbag Lunch with DC/PY ORD interns, student contractors, PMFs, and post docs

Location RRB 41213

Show Time As Busy

Based off of the conversation and feedback following the previous brownbag lunch, below is the theme and suggested questions for our next brownbag lunch on August 26th. Looking forward to seeing you there!

“Skills Needed to Address Continuing and Emerging Issues”

1. During the last brown bag lunch, Tom spoke broadly about emerging science issues and the importance of science translation and communication. Given that people are at different stages in their education (either still in school, thinking of pursuing another degree, or just finished school), what are ways to continue to improve/practice skills, such as communications, to be able to address emerging issues?
 - a. How can we demonstrate these skills on a resume?
 - b. For students considering advanced degrees, are Masters degrees and PhDs worth going back to school for? What is some feedback post docs in the room can give about their experience?
 - c. What degrees or areas of study should students consider to be prepared to tackle complex environmental issues?
 - d. What are things people can do to stay up-to-date on emerging issues? How can they incorporate that knowledge into their everyday work?

Show Time As Busy
> Hey folks
>
> As you are all probably aware Greg Sayles, Acting Director, NHSRC, is also the lead for ORD's Reachback for Emergency Response (RACER) effort that was stood up to coordinate across ORD to support the Headquarters Emergency Operations Center (EOC). Specifically RACER is coordinating ORD involvement in supporting Regional or HQ technical requests that land on the EOC ORD Desk as we address the issues surrounding the Gold King Mine Release. I've been supporting Greg in reaching out to ORD staff to address the various requests we've attended to over the last couple weeks.

>

> Most of you may recall having your name added to a list of ORD experts that could be tapped into if the time came to take a look at the above mentioned strategy. Well that time has arrived and I've attached a .pdf of the strategy for review and comment. I've also included a comment table that I'd appreciate you use to provide your comments. I prefer this approach to Track Changes because it's easier to consolidate. This is especially important for those of you who are in the same branch or division. It would be helpful to me to have your comments consolidated in one set of tables. Also, I realize that you all may know others that you feel should weigh in. I think that's fine, but please include their comments with yours and identify the person and organization from which they came.

>

> Unfortunately, we have a very short fuse. As of this moment (and it may change) ORD's consolidated comments are due to the EOC Water Desk by COB (EST) tomorrow. I anticipate that there will be some differences of opinion or other issues that will need to be cleared up before ORD's comments are submitted, so I think we'll probably need to have a call sometime in the late afternoon. So I will need your comments by 1pm EST so I can consolidate before the call. I will send an invitation for the call tomorrow morning. Just to be up front, some of this timing may change, but I'll do my best to keep you apprised.

>

> What are we shooting for in the review? I think we need to carefully consider the objective that the Region has put forward as the driver for this plan because it is very broad and it may need some further thought:

>

> "The objective of this monitoring plan is to assess pre- and post-incident surface water quality, sediment quality and biology of Cement Creek, the Animas River and downstream waters."

>

> I simply ask you to apply your best professional judgement in evaluating whether or not the draft strategy can fulfill this objective and, if not, please identify the things you would add or change. Perhaps the objective itself needs some attention? This isn't really about designing a research project, however, I'm sure that there are many interesting technical issues that could possibly be pursued, but more about focusing on the integrity of this complex ecosystem and to gather the appropriate information to make qualified statements about the ecosystem's health.

>

> The Region intends to share this strategy with the states and the tribes after they receive and incorporate comments from across the Agency, so it will then be a public document once it is sent out by the Region. We want to help the Region in putting together a sound, scientific, comprehensive approach to this long-term watershed monitoring strategy. I understand that the short turnaround isn't conducive to an intense review, but we've been down similar roads in the past. We'll need to do the best we can. I already know that we will get another bite at the apple after the states and tribes provide comments, so there will likely be more to follow in the next few weeks.

>

> I appreciate your time and effort on this and please give me a call or send me an email if you have questions.

▲ **Time** 4:00 PM – 4:30 PM
Subject General Discussion with Dr. Gary Foley
Location RRB 41209 or Dr. Burke will Call Dr. Foley directly: 919-961-7610
Show Time As Busy
CT: Heather Robinson, Robinson.Heather@epa.gov
<mailto:Robinson.Heather@epa.gov> , 919-541-3554

Staff:
Dr. Gary Foley

Notes: Dr. Foley would like to discuss his work as the EPA principle to USGEO and GEO, Sustainability work with the regional offices, the Rockefeller 100RC partnership, and his efforts to promote science-to-applications to meet decision-maker's needs. He is interested in discussing how the work he is doing will fit into Dr. Burke's vision for ORD.

This meeting was previously scheduled in the early summer but was unfortunately canceled due to conflicts from a time sensitive issue for the Administrator's office.

Attendees	Name <E-mail>	Attendance

Sunday, August 30, 2015

▲ **Time** 1:00 PM – 4:00 PM
Subject ORD Tools Café
Location Coastal Institute, URI Bay Campus, Narragansett, RI
Show Time As Busy
ORD Tools Café
Sunday, August 30, 2015
1:00 – 4:00 pm

ORD, in partnership with the Environmental Research Institute of the States (ERIS), the research arm of ECOS, will host an ORD Tools Café the day prior to the ECOS Fall Meeting to showcase EPA research and demonstrate ORD tools that states are using or could use in their work. The focus will be hands-on demonstrations of tools, with exhibits, booths, posters, etc.

We also plan to offer an optional tour of our Atlantic Ecology Division featuring the boathouse (sampling), greenhouse (wetlands research) and green roof.

Please do not forward this invitation. We expect attendance to be limited.

We need to complete a Form 5170. The ORD attendees as I understand

it are:
Tom Burke
Lek Kadeli
Jennifer Orme-Zavaleta
Lisa Matthews
Aaron Ferster (on-site support)
Wayne Munns

Regards,
Lisa Matthews
202-564-6669 office
202-577-4035 mobile
